## EXPERIENCE

### Python Developer

#### CABA, Buenos Aires

📅 2019 - Present 📍 Buenos Aires

- As a Python Developer, I specialize in creating robust and scalable applications by leveraging various frameworks and libraries. My role involves designing, developing, and maintaining software solutions tailored to meet business needs.
- Developed robust and scalable web applications using Django and Flask.
- Utilized Pandas, NumPy, and Matplotlib for complex data manipulation and insightful visualizations.
- Managed and queried SQL databases, ensuring efficient data storage and retrieval.
- Created interactive and user-friendly mobile applications using Kivy.

### Computer Technician

#### CABA, Buenos Aires

📅 01/2016 - 01/2021 📍 Buenos Aires

- Diagnose, troubleshoot, and resolve hardware and software issues that users encounter.
- Ensure the optimal performance of computers and networks.
- Configure hardware and software, and set up new systems.

## EDUCATION

### Foreman Degree

#### Escuela Tecnica N°11 "Manuel Belgrano"

📅 2010 - 2017 📍 CABA, Buenos Aires

## TRAINING/COURSES

#### Computer Science V-7

Open Source Society University

#### Training in Data and Artificial Intelligence

UBA - IALAB

## SKILLS

Python	Javascript	HTML/CSS	Tailwind
Bootstrap	Django	Flask	Kivy/KivyMD
PostgreSQL	Pandas	Matplotlib	Numpy
TensorFlow	Pytorch	GIT	Linux

## SUMMARY

I am a skilled Python developer with extensive experience in web development, data analysis, and application development. I have successfully completed numerous projects utilizing a diverse set of frameworks and libraries. With a strong foundation in Django and Flask for web development, I have built robust and scalable web applications tailored to meet specific business needs. My expertise in Pandas, NumPy and Matplotlib has enabled me to perform complex data analysis and create insightful visualizations, facilitating data-driven decision-making. Additionally, my proficiency in Kivy has allowed me to develop interactive and user-friendly mobile applications. I am well-versed in managing and querying SQL databases, ensuring efficient data storage and retrieval. My comprehensive skill set, combined with a passion for creating high-quality software solutions, positions me as a versatile and valuable asset to any development team.
